there is hardly a technical library in the world in which the volumes of the chemical formulary volumes 1-34 do not occupy a prominent place it does not duplicate any of the formulas included in previous volumes but lists a wide array of modern and salable products from all branches of the chemical industries an excellent reference for formulation problems contents i introduction ii adhesives iii beverages and foods iv cosmetics v coatings vi detergents vii drugs viii metal treatments ix polishes x elastomers polymers and resins xi miscellaneous appendix index preface chemistry as taught in our schools and colleges concerns chiefly synthesis analysis and engineering and properly so it is part of the right foundation for the education of the chemist many a chemist entering an industry soon finds that most of the products manufactured by his concern are not synthetic or definite complex compounds but are mixtures blends or highly complex

compounds of which he knows little or nothing the literature in this field if any may be meager scattered or obsolete even chemists with years of experience in one or more industries spend considerable time and effort in acquainting themselves with any new field which they may enter consulting chemists similarly have to solve problems brought to them from industries foreign to them there was a definite need for an up to date compilation of formulae for chemical compounding and treatment since the fields to be covered are many and varied an editorial board of chemists and engineers engaged in many industries was formed many publications laboratories manufacturing firms and individuals have been consulted to obtain the latest and best information it is felt that the formulas given in this volume will save chemists and allied workers much time and effort
