this book is a comprehensive and dispassionate analysis of the intriguing macedonian question from 1878 until 1949 and of the macedonians and of their neighbours from the 1890s until today with the two themes intertwining the

macedonian question was an offshoot of the wider eastern question i e the fate of the european remnants of the ottoman empire once it dissolved the initial protagonists of the macedonian question were greece bulgaria and serbia and a slav speaking population inhabiting geographical macedonia in search of its destiny the largest segment of which ended up creating a new nation comprising the macedonians something unacceptable to its three neighbours alexis heraclides analyses the shifting sands of the macedonian question and of the gradual rise of macedonian nationhood with special emphasis on the greek bulgarian and serbian claims to macedonia 1870s 1919 the birth and vicissitudes of the most famous macedonian revolutionary organization the vm o ro and of other organizations 1893 1940 the appearance and gradual establishment of the macedonian nation from the 1890s until 1945 titos s crucial role in macedonian nationhood cum federal status the greek macedonian name dispute 1991 2018 including the skeletons in the cupboard the deep seated reasons rendering the clash intractable for decades the final greek macedonian settlement the 2018 prespa agreement the bulgarian macedonian dispute 1950 today and its ephemeral settlement in 2017 the issue of the macedonian language and the macedonian national historical narrative the author also addresses questions around who the ancient macedonians were and the fascination with alexander the great this monograph will be an essential resource for scholars working on macedonian history balkan politics and conflict resolution

a bloody rebellion by albanian guerrillas demanding equal rights in macedonia has killed and wounded thousands of people and led to fears that the crisis will embroil kosovo albania bulgaria and greece international intervention brought an uneasy halt to the blood letting last summer but hardline macedonian nationalists have blocked full implementation of the peace agreement and there are now fears that the national liberation army will renew its campaign leading to more ethnic cleansing in the heart of europe phillips covers the front line fighting as well as the behind the scenes diplomacy in skopje and shows just how damaging the present conflict is for any hope of a lasting balkan peace

nearly two centuries have passed since K. O. Müller published the first scientific study on the habitat, the origin and the early history of the Macedonian people. An ever growing number of publications appearing each year has rendered urgent a critical appraisal of this exuberant production. The more so that many aspects of ancient Macedonia remain controversial if not problematic. Yet after seventy years of large scale systematic excavations, the activity of Greek archaeologists as well as the labour of scholars from all over the world have revealed a heretofore terra incognita and given a consistency to the people that Alexander led to the end of the known world. Now more than ever before we can tackle the main problems that have been contested without conclusion: where exactly was Macedonia, which were its limits, where did the Macedonians come from, what language did they speak, what cults did they practice, did they believe in an afterlife, what political and social institutions did they have, what was Alexander's role in his father's death, what were his aims, to what extent can we trust ancient historians, Alexander failed to provide a stable successor to the Achaemenid multiethnic empire and the sands of Egypt have effaced even the traces of his last abode. Yet if he returned to life he could still boast in the words of Cavafy: a modern Alexandrian in every sense, a new Hellenic world, a great one came to be with the extended dominions, with the various attempts at judicious adaptations and the Greek koine language all the way to Outer Bactria, we carried it to the peoples of India.

macedonia has been contested by its three neighbours serbia bulgaria and greece during and since the demise of the ottoman empire but the macedonian question extends far beyond the contested borders of macedonia to immigrant communities in europe australia and north america the contributors to this collection explore the contemporary repercussions of the macedonian question which has long been at the heart of balkan politics the volume recognises macedonia as a global issue and focuses on the politics of identity and difference in both homeland and diaspora the contributors argue that macedonia as place and as concept is forged within a transnational network of diasporas local communities states and international institutions they examine the increasingly important role of transnational bodies including the european union and human rights ngos in regulating relationships between states and minority groups as well as in promoting multiculturalism and civic participation they consider the role of scholarship and the media in

defining macedonia and its inhabitants they also draw attention to the struggles of individuals in constructing negotiating and even transforming their identities in the face of competing nationalisms and memories in the process they re evaluate ethnicity as a conceptual tool for understanding difference in the region and raise questions about the implications of recognising and not recognising difference at the political level
